- WP1: Roadmap work
- AOB

Overview of WPs and tasks

- Main results obtained in the last year for the Tasks and WPs

- Delays, deviations from the plan and mitigation measures, especially due to COVID-19

- Data produced, registration in the catalogue and access to data in repositories

- Exploitation of the results, what has been done and what is the expected impact

- Plan for completion of work during 2021, including response the last review report

Details from each partner to be reported in
the Progress report for the last 12 months

INTAROS

Describe exploitation of results

All partners are required to report how they exploit results from INTAROS:

- Observational data: provide new data or improved access to existing data (data catalogue)
- New or improved observing platforms and sensors
- New protocols, standards, metadata, etc. for the systems
- Develop interoperability of distributed data repositories
- Demonstrate useful applications towards stakeholders
- Collaboration development and planning of joint work with new partners and stakeholders
- Establish new spinoff projects
- Develop and provide services

INTAROS

Reporting including deviation from the plan

- Prepare the technical report for M37-M48 – to be completed by 31 Jan

- Pepare the financial report for M37-M48 – to be completed by 31 Jan

- Update of risk assessment and mitigation actions due to COVID-19: delays, cancellations, etc.

- Any critical issues with impact on completion of the project by 30 November 2021 ?

- Do we need to change the work plan ?

INTAROS

Presentations, questions and comments

- The presenters should upload their ppt/pdf presentations to a dropbox

- Participants can give comments and questions using chat

- Each WP-session will have 15 min for questions and comments

- The presenters can reply orally or provide written replies in the chat file.

- The presentations will be recorded and made available for the consortium
